Locking Base

Secures hook to wall board; hook can only be removed with patented OM Key™

Enhanced Mechanics

Internal shuttle and spring mechanism is up to 10x more secure than previous secure hooks

StopLok™

New design is engineered to provide more stability and increased security

Adjustable locking & inventory management

Allows you to control the amount of "live" merchandise in front of the StopLok and locked merchandise behind it

Unlocks & adjusts quickly

Physical Stop

- Permanently affixed to top wire
- Holds StopLok in place
- Provides enhanced security

The Orthogonal Magnet (OM) generates a perpendicular force that provides a more secure interface with the new Secure Fixtures socket and shuttle locking mechanism.
